Nucamp Coding Bootcamp
Full Stack Web + Mobile Development Certificate Program 2021

University of North Florida
Bachelors of Education 2016 3.8 GPA

EXPERIENCE

J MERCER MARKETING - REACT
Collaborated with client to build a React landing page for her marketing business. Components were created by using the React library. Version controlled via local and Github repository. Build tools included NPM, webpack and Yarn. Website: https://jmercermarketing.netlify.app
Repository:
https://github.com/SantanaWoollery/JMercer-Project

MEET SANTANA - REACT
Constructed a personal portfolio React app using the React library, JQuery, Bootstrap, CSS, EmailJS, and Yarn. Simulated using localhost, and deployed build folder via Netlify. Website: https://meetsantana.netlify.app
Repository:
https://github.com/SantanaWoollery/meetSantana

NUCAMPSITE BACK END - REACT
Collaborated with cohort using Slack and Zoom to build a separate back-end for an existing React app. Utilized PostMan for unit testing. Utilized JSON server, Cookie Parser, Cors, Express, HTTP, JSON Web Token, Mongoose, Mongoose Currency, Morgan, Multer, Passport and Session File Store. Repository:
https://github.com/SantanaWoollery/nucampsiteServer/
